Terms and Conditions of Claiming for Funding

I understand and shall conform to the following:

- All work will conform to the **Assistance Program for Forest Damage and Renewal** Criteria determined by the Association for Sustainable Forestry (ASF).
- **All sites seeking assistance must be pre-approved by ASF staff.**
- A Forest Technician or Forester has inspected the completed work prior to claiming.
- **The applicant declares they are not in a conflict-of-interest with the funding provider or agency.**

- Eligible woodlots must remain in a forested state for (10) years or more following treatment. If the area is taken out of forest production, the Landowner, Contractor, their heirs or their assignee(s) will be required to repay to the ASF any contribution or contributions originally paid.

- An eligible Harvesting/Transportation contractor is a contractor that owns or leases forest harvesting equipment that have been used on the site for which the claim has been made.

- Any misrepresentations or false statements made by a landowner or contractor to the Association regarding treatment area eligibility will result in the ineligible expenditures being rejected during the claims process.
- Evidence of product utilization and removal from the site is required.
- Products remaining on-site, as either standing or downed coarse woody material, are primarily only for requirements of post-harvest retention (i.e., for WHWP or treatment design purposes), for biodiversity purposes (existing and future snags and cavity trees, CWM, etc.), or when materials are beyond saleable condition.
- All correspondence, maps, plans, drawings, diagrams, photographs, and any other physical or electronic records which are created under the Association for Sustainable Forestry's Program are the property of the ASF and will be stored and handled according to all applicable Privacy Legislation.
- The information will be used solely for the purposes outlined in the service Agreement between the ASF and the DNR.
